THE PERKY TAIL AS SEEN ON CHANEL IMAN

The cutest, all-in-one up-tail this side of the equator.

Wear: Anywhere, anytime. The style plays nice, day or night, so get stylin'.

How-to: "Tease the hair at your crown with a comb, then smooth the teasing over with a brush," Yolanda says. "This'll give you volume in the right places." When you tie the ponytail in place

(at the centre, back of your head), push it up and put bobby pins underneath the band so it maintains its height and stays put. Secure any flyaways with a smoothing serum. This look is extra pretty if you have wavy or curly hair, or you can curl a few pieces of the ponytail with your straightener.

THE HIGH-SIDE TAIL AS SEEN AT THE NAEEM KHAN FASHION SHOW

This style takes the low side bun or pony to new heights - literally!

Wear: To a party/festival or when you feel like standing out.

How-to: This style is as easy as it is edgy! Start by straightening your hair. "Then, brush all of your hair over to one side and fix it into a high side ponytail," Yolanda explains. "For the finishing touch, take a small side piece of hair and wrap it around the elastic so it doesn't show," she suggests. Secure with a bobby pin and use some holding spray to seal.
